**ADVANCE CLAIM REVIEW**

When a Dentist's treatment plan exceeds \$300, details of the proposed course of treatment and charges to be made should be filed with the Plan Supervisor. The Plan Supervisor will estimate the benefit and the Dentist will be notified of this estimation. Advance Claim Review is not mandatory, but is beneficial in helping Covered Persons determine benefits available under the Plan prior to having procedures performed.

The Plan Supervisor has the right to require an oral exam of the person at its own expense and provide at request all diagnostic and evaluative material it may require.
