From LeTourneau University's very beginning, our founder, R.G. LeTourneau, believed in the importance of college education while not giving up a full-time job. LETU was founded specifically to train the employees working in Mr. LeTourneau's factory.

Today, an online education from LeTourneau University delivers the prestige and quality of an LETU education through the convenience of being able to complete your classes from anywhere in the world without the need to make sacrifices in your current career or family. We offer several entirely online degree programs as well as many stand-alone classes that can be taken in an accelerated online format.

At LETU, you will learn not only from some of the finest full-time faculty in the world but from hundreds of part-time faculty who are extremely successful professionals who take time out of their work to give back to the next generation of entrepreneurs and thinkers.

LeTourneau University has always placed great value in practical, hands-on education, and this foundation continues through every online class we offer. The theoretical concepts are only valuable to you if you learn how to directly apply them to your own work and career.

LeTourneau University is accredited by the Southern Association of Colleges and Schools Commission on Colleges, one of the most rigorous and prestigious collegiate accrediting bodies in the United States. Our online degrees have consistently received top honors by several online education resources, and LeTourneau has been listed in the top tier of **America's Best Colleges** by *U.S. News and World Report* more than a dozen times.
